SAFETY INSPECTIONS: You are responsible for the safe operation of your vehicle. Inspect your vehicle's tires, brakes, steering, suspension, lights and other equipment often to make sure your vehicle is in safe operating condition.

Most vehicles do not require a safety inspection for Utah registration. Contact the DMV if this is the first-time registration of a street-legal ATV or salvage vehicle.

Commercial vehicles require an annual safety inspection. An inspection certificate must be kept in the vehicle for review by law enforcement but does not need to be submitted to the DMV for registration.
